Interpon D2525 Ultriva: Ultra durable performance for all architectural projects

Whether making a statement with color, searching for quality, or satisfying durability requirements **Interpon D2525 Ultriva** meets the needs of the most demanding projects. Developed specifically for architectural components the range is ideal for both exterior and interior aluminum applications from curtain wall extrusions to balustrades and louver systems.

Providing ultra protection from the elements the range exceeds global weathering standard AAMA2604-13, guaranteeing excellent color retention and high resistance to chalking. Exceptional endurance to environmental stressors including high levels of UV radiation, humidity, heavy pollutants and extreme temperatures are achieved through ultra durable polymer technology engineered to withstand weathering extremes.

Guaranteed up to 25 years Gold Global Warranty* the **Interpon D2525 Ultriva** range is perfect for pre-formed aluminum components such as curtain wall extrusions and panels, window and door systems, balustrades, exterior lighting fixtures, fencing and other aluminum sections.

Custom Made Colors: Guaranteeing your color freedom

Featuring pearl, metallic, textured, matt, and high gloss finishes this collection aims to inspire your world of color without limitation.

Once you've found the perfect color take advantage of our industry leading color match service. Capable of matching nearly every conceivable color from almost any source, Akzo Nobel offers a rapid service, ensuring the right color for your project, fast.

Furthermore, no project is too small for our capability with both custom and ex-stock colors available in quantities as small as 100kg (coats approximately 700m²) available through our **MiniB™** and **MiniB Micro** services.

To place your order for a custom made color, contact our Customer Service Centre on above numbers.

Sustainability

Our entire range of Interpon D architectural powder coatings produce minimal product waste, low emissions and contain no volatile organic compounds (VOC's) or toxic heavy metals.

Solvent free and recyclable, our powder coatings offer an environmentally sustainable and cost effective option to alternatives such as liquid paints.

Upgrade to Interpon D3020 Fluoromax®

When unparalleled premium performance is a must for your project, Interpon D3020 Fluoromax based on Fluorocarbon technology is the product of choice. Meeting AAMA2605-13 specification Interpon D3020 Fluoromax offers premium color and gloss retention with superior weathering performance. A viable cost effective and environmentally conscious alternative to liquid fluorocarbon paints can be achieved without compromise.

How to Specify Interpon Powder Coatings

Once you have chosen Interpon Powder Coatings, it's important to specify the correct product. We make specifying our powder coatings easy, simply:

1. Nominate the Interpon product, e.g. Interpon D2525 Ultriva
2. Nominate the color, finish and product code, e.g. Charcoal Pearl Matt YY237A

Please contact the Interpon Customer Care Team for additional specification support and advice.

Interpon®

AkzoNobel endeavours to ensure the information contained in this publication is correct at the time of printing. All products referred to and any technical advice provided is subject to the standard terms and conditions of sale of the AkzoNobel supplying company.

* Warranty applies only to aluminum when coated by an Interpon D Approved Applicator. Terms and conditions apply. Contact your Interpon representative for further details.
