

Ready to Ship: Architectural Powder Coatings

Interpon D Applicator Program and Warranties:

AkzoNobel Powder Coating gives Approved Applicator status only to those applicators who have been assessed and found to have metal pretreatment facilities, powder application equipment, stoving and testing facilities which are considered to be of the appropriate standard to ensure the successful application of the **Interpon D** range of architectural powder coatings. In addition to this, the applicator must demonstrate to the satisfaction of AkzoNobel that a satisfactory quality management procedure is in place to achieve the quality and the continuity of quality expected of Interpon D range coated metal. AkzoNobel technical service team makes regular visits to the applicators to support and audit the applicators.

All **Interpon D** products are backed by an international project warranty when applied by Akzo Nobel Approved Applicators. The term of the project warranty: 15 years for **Interpon D1000** series, 25 years for **Interpon D2000** series, and 30 years for **Interpon D3000** series.

	D1000 series	D2000 series	D3000 series
 Type	Standard durability	Super durability	Hyper durability
